Professional Experience:

Manual Tester

January 2024 - working| HCL Tech

- I am a Manual Tester at HCL with 1.5 years of experience on the Microsoft Teams project. I specialize in executing manual tests, identifying and reporting defects, and ensuring software quality. Collaborating with developers and product teams, I help enhance application performance through regression, functional, and UI testing. Additionally, I manage test cases and documentation to track testing progress and defect resolution efficiently.

Manual Tester

January 2024 - working| HCL Tech

- I am a Manual Tester at HCL with 1.5 years of experience on the Microsoft Teams iOS mobile testing team. I specialize in executing manual tests, identifying defects, and ensuring app stability. Working closely with developers, I help validate fixes and enhance app quality through regression, UI, and functional testing while managing test cases and documentation efficiently.
